

4 Foot LED Tubes

Long-life, energy-efficient LED tube lights for T8 and T12 fixtures provide bright, reliable and silent (no ballast buzzing) instant-on lighting with an operating life of as much as 50,000 hours.

Applications

Ideal for commercial applications: offices, stores, hospitals, manufacturing plants, etc., as well as residential applications: kitchens, bathrooms, garages, basements, and more.

Features

- Super bright, glare-free light
- Instant on, flicker-free, silent—no ballast
- Consumes less energy
- Emits less heat
- No mercury or other hazardous materials
- 50,000-hour average operating life means the LED tube can run 24/7 for nearly six years before needing replacement
- Durable aluminum and plastic construction
- Fits any T8 and T12 fixtures
